Skills

- Figma
- C++
- JavaScript
- Html + CSS
- TailWind CSS
- React
- Pixel Art

Prabal Shakya

UI/UX Designer

I'm a Computer Science student passionate about UI/UX design, pixel art, and creating visually engaging digital experiences, with project-based experience in C++, JavaScript, and React development. I enjoy designing interfaces that are not only functional, but also immersive, aesthetically pleasing, and user-friendly.

EDUCATION

2020 - 2022

+2 Science

Kathmandu University High School | Dhulikhel, Kavre

2022 - Present

Bachelor in Computer Science

Kathmandu University | Dhulikhel, Kavre

4th Year, 2nd Semester

Projects

Personal Portfolio Website – From Wireframe to High-Fidelity UI

This project showcases the complete UI design process for my personal portfolio website, starting with a low-fidelity wireframe and progressing to a polished high-fidelity design in Figma.

Cozy Pixel Themed To-Do and Pomodoro

This Figma prototypes showcases pixel-art inspired productivity applications, including a To-Do List and a Pomodoro Timer. The designs focus on creating a simple, engaging, and user-friendly experience by combining intuitive task management and time-tracking features making productivity both functional and enjoyable.

Ride Sharing App Prototype

This prototype showcases a clean and user-friendly ride-booking mobile app designed in Figma, featuring onboarding, authentication, ride booking, and a streamlined user experience.

Interactive Product Landing Page

This Figma prototype is an interactive landing page for a donut brand, allowing users to switch between different donut flavors through a smooth, visually engaging interface.

Chat App Design (मो-Chat).

This Figma design presents a modern desktop messaging application with a clean and user-friendly interface.
